

## Key Investor Information

**This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.**

<b>Alma Eikoh Equilibria Japan Long/Short Equity Fund Class I JPY - C, a share class of Alma Eikoh Equilibria Japan Long/Short Equity Fund, a sub-fund of Alma Capital Investment Funds (ISIN: LU1744752889)</b> This Fund is managed by Alma Capital Investment Management																						
<b>Objectives and Investment Policy</b>																						
The Fund aims to achieve an attractive absolute return while generally attempting to keep net market exposure relatively small through investments (long and short) in Japanese equity and equity-related securities, including securities issued by companies with substantial economic exposure to Japan as well as securities listed on stock exchanges in Japan. The Fund may use financial derivative instruments to obtain all or part of the Fund's exposure. In particular, short positions comprising the short portfolio will be achieved through financial derivative instruments only. <b>ERIM LLP</b> manages the portfolio of this Fund.	All income of the Fund is reinvested. Institutional investors can buy and sell shares of the Fund on a daily basis. The first investment must amount to at least 25,000,000.00 Japanese yen.

<p>The above indicator (Synthetic Risk and Reward Indicator) reflects the historical level of risk and reward of this share class over the last 5 years. As it is based on its historical behaviour, <b>it does not necessarily reflect future risk, nor reward</b>. This share class is classified as above since it has experienced <b>strong movements in its value</b>.</p> <p>This classification is solely valid as of the date of this document; it can change in the future.</p> <p>Investors investing in a fund in the category "1" above may sustain a loss. A fund in this category is not risk free at all times.</p> <p><b>The Fund does not provide investors with any guarantee</b> of performance nor of the value of investments in it. The latter may consequently go up, as well as down.</p> <p>The indicator captures the impacts on the Fund of movements in financial markets and currencies, <b>under normal market conditions</b>.</p>																						
<p><b>Risks materially relevant to the Fund which are not captured by the indicator:</b></p> <p>The following other risks can be significant to the Fund:</p> <p>Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact portfolio valuation.</p> <p>Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis the portfolio.</p> <p>Selection risk: the Investment Manager's judgment about the attractiveness, value and potential appreciation of a particular company's security could be incorrect.</p> <p>Derivative instruments: a careful use of derivatives can be beneficial to the Fund but also implies additional risks which are different from the ones related to the underlying. Derivatives may be used to obtain, increase or reduce exposure to underlying assets and may create leverage. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested. Such leverage may result in greater fluctuations of the Net Asset Value of the Fund and therefore entails a high degree of risk, including the risk that losses may be substantial.</p> <p>More details on the risks investors may be exposed to when investing in this Fund are described in the "Risk Factors" section and the relevant Special Section of the Prospectus.</p>																						

## Charges for this Fund

One-off charges taken before or after you invest:	
Entry charge	2%
Exit charge	0.5%
<i>This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out</i>	
Charges taken from the Fund over a year	
Ongoing charge	1.45%
Charges taken from the Fund under specific conditions	
Performance fee: 17.5% a year of any returns the Fund achieves. The Fund must recover previous losses before a performance fee will be charged. The performance fees are calculated in accordance with the methodology described in the prospectus.	

The charges paid are used to finance the costs of running the Fund, including the costs of distribution. These charges reduce the potential growth of investments.

The **entry** and **exit charges** shown are maximum figures. In some cases investors may pay less—more details can be obtained from investment advisers or distributors.

The **ongoing charges** figure shown here is an estimate of the charges incurred by the Fund over one year. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

A charge of up to 1% may be levied if shares in this share class are converted into shares of other Funds or classes, as further described in the prospectus.

For more information about charges, please refer to the “Fees, Compensation and Expenses” section of the Fund’s Prospectus, which is available at [www.fundsquare.net](http://www.fundsquare.net)

## Past Performance

Past performance provides no indication of future returns.

All fees and expenses, as included in the price of the Fund, are reflected in the performance shown left, which is calculated in Japanese yen. This performance does not take into account the above mentioned maximum entry and exit charges.

The Fund was launched on 16 May 2018 and this share class was launched on 16 May 2018.
