## Investment Strategy

- Non-benchmark oriented approach that seeks to maximize risk-adjusted returns by investing mainly in below investment grade, USD denominated convertible securities of US-based issuers.
- Intensive fundamental credit and equity analysis to identify creditworthy companies with potential equity upside.
- The fund benefits from the investment manager's strong credit expertise in the US high yield market.
- Disciplined and defensive entry/exit strategy, which aims to purchase convertibles with a low premium above the bond valuation and sell securities with excessive equity sensitivity.

## Investment Manager - Shenkman<sup>(1)</sup>

- SEC-registered New York-based independent investment advisor founded in 1985, with \$28bn in AUM.
- Portfolio management team has been working together for 18 years.
- Specialised in the high yield bond, convertible bond and loan markets.
- Signatory to the United Nations Principles for Responsible Investment.
