What is this product?

Type

- This product is a class of share of the Sub-Fund and denominated in USD. The Fund Alma Capital Investment Funds is an open ended investment company with a variable capital and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Objectives

Investment objective

- The investment objective of the Sub-Fund is to seek total return.

Investment policy

- The Sub-Fund seeks to achieve its investment objective by investing primarily in publicly traded equity and debt securities of global natural resource related companies. Natural resource-related companies are companies operating in a capacity related to the supply, production, distribution, refining, transportation and consumption of natural resources.
- The Sub-Fund will consider a company a natural resource-related company if the company is categorized within the following industries (according to Global Industry Classification Standards (GICS) classifications): chemicals, construction materials, containers & packaging, energy equipment & services, metals & mining, oil, gas & consumable fuels, and paper & forest products and include the following:
 1. Energy companies – companies across the energy supply chain spectrum, including upstream, midstream and downstream energy companies (i.e., companies engaged in exploration and production; gathering, transporting and processing, and marketing and distribution, respectively), of various energy sources such as natural gas, crude oil, refined products, coal and electricity, as well as companies that provide services to oil and gas companies.
 2. Basic materials – companies involved in producing, processing, transporting or distributing chemical, industrial metals, precious metals, construction materials, agricultural, paper and forest products.
 3. Industrial companies – industrial, containers and packaging, consumer, manufacturing and engineering and construction companies involved in the production, processing, distributing and transporting of natural resources.
 4. Infrastructure companies – companies which manufacture, install, own, operate or service assets that enable the connectivity of the supply and demand of natural resources.
 5. Transportation and logistics companies – companies that provide solutions for transportation and logistics to the U.S. manufacturing industry.

- The Sub-Fund may invest up to 25% of its total assets in debt securities, preferred stock and convertible securities of global natural resource-related companies, provided that such securities are rated, at the time of investment, at least B3 by Moody's Investors Service, Inc., B- by Standard & Poor's or Fitch Ratings, or a comparable rating by another recognized statistical rating organization or with respect to up to 10% of its total assets in debt securities, preferred stock and convertible securities, have lower ratings or are unrated at the time of investment. The Sub-Fund may invest in debt securities of any maturity or duration.
- A maximum of 10% of the Sub-Fund's net assets may be invested in units or shares of UCITS or Other UCIs.
- The Sub-Fund may invest in certain types of derivatives, including, but not limited to, options, futures and options on futures, swaps and forward currency exchange contracts.
- The Sub-Fund is actively managed with no reference to a benchmark.
- The Sub-Fund promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics in compliance with Article 8 of the Sustainable Financial Disclosure Regulation ("SFDR").
- Given the above objectives and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and Dealing: This product is valued on each day on which banks are open for business in Luxembourg and New York ("Business Day"). Shares may be subscribed or redeemed on each Business Day no later than 12:00 p.m. CET one (1) Business Day before the relevant valuation day.

Distribution Policy: This product does not pay dividends. Income generated by the Sub-Fund is reinvested and included in the value of your share.

Intended investor

This Sub-Fund is a medium risk vehicle aiming to provide capital growth. It may be suitable for investors who are looking for long-term capital appreciation of their investment and who are willing to accept fluctuations (sometimes significant) in the net asset value per share of the Sub-Fund during the short term. Shareholders should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that they will recover their initial investment.

The class I USD C is dedicated to institutional investors only.

The minimum investment is USD 250,000.

Practical information

Depositary: BNP Paribas, Luxembourg branch, 60, Avenue J.-F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert

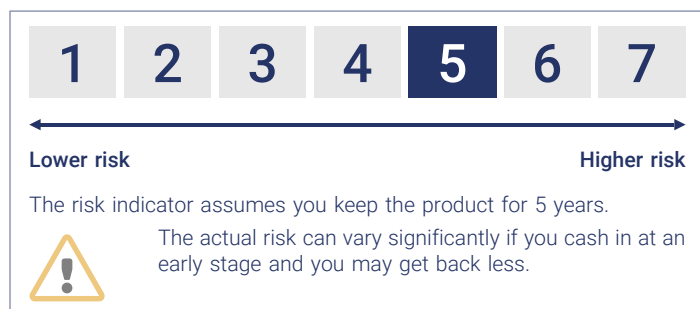

their shares in shares of another sub-fund/class of the fund, as more described in the prospectus.

Copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information such as the latest

price for the shares may be obtained free of charge, in English, from Alma Capital Investment Management or at www.fundsquare.net.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because it is not able to pay you.

The product is classified in the category 5 out of 7, which is a medium-high risk class.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 May 2024 and 31 October 2025.

Moderate: this type of scenario occurred for an investment between 30 November 2017 and 30 November 2022.

Favourable: this type of scenario occurred for an investment between 31 March 2020 and 31 March 2025.

What happens if Alma Capital Investment Management S.A. is unable to pay out?

You are exposed to the risk that Alma Capital Investment Management S.A. might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. They are based on the following regulatory assumptions: (i) in the first year, you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) \$ 10,000 is invested.

Example Investment \$ 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	\$ 377	\$ 991
Annual cost impact*	3.8%	2.0%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.8% before costs and 10.8% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	2.00% maximum of the amount you pay in when entering this investment. In case of conversion into another class or another sub-fund, a maximum of 1% conversion fee is charged.	up to \$ 200
Exit costs	0.50% of your investment before it is paid out to you.	up to \$ 50
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.21% of the value of your investment per year. This is an estimate based on actual costs over the last year.	\$ 121
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$ 6
Incidental costs taken under specific conditions		
Performance fees	0.00% . There is no performance fee for this product.	\$ 0

How long should I hold it and can I take money out early?

Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP or hold the investment longer. Redemptions of shares will be effected each valuation day provided that the redemption notice has been received no later than 12:00 p.m. CET one (1) Business Day before the relevant valuation day, which is each Business Day. Applications received after that time will be considered for the following valuation day and processed on the next valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.

How can I complain?

If you have any complaint about the product, please find the steps to be followed for lodging any complaint at www.almacapital.com/documentation/. You can also send your complaint at the registered office of the management company and/or directly to local distributors and/or paying agents of the relevant country of distribution or by e-mail to: compliance@almacapital.com. If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
