Alma Platinum MidOcean Absolute Return Credit

Fund Assets under Management: \$126,978,250

Investment Strategy

Alma Platinum MidOcean Absolute Return Credit (the "Fund") is an open-ended UCITS compliant fund that employs a long/short corporate credit approach focusing on US companies. The Investment Manager of the Fund is MidOcean Credit Fund Management, L.P. ("MidOcean"). The Investment Manager follows the MidOcean Absolute Return Credit strategy (the "Strategy"). The Strategy primarily invests in liquid short-dated corporate bonds, with a core focus on callable securities and credit default swaps. The combination of relative value positions with outright long or short credit holdings will typically produce a low duration and diversified portfolio. The Strategy utilizes fundamental analysis to seek alpha opportunities primarily in short duration callable bonds. The Investment Manager typically constructs the portfolio with a net long bias and will seek to dynamically adjust the Sub-Fund's net credit exposure and market exposure to optimise the portfolio's risk profile given then prevailing market conditions. The gross leverage is not expected to exceed 750% of the value of the Fund.

Commentary - MidOcean Credit Partners - October ⁽²⁾

The UCITS (share class: DMAI1CU, the "Fund") generated an estimated net return of +0.30% in October. Strong credit selection in the Fund's HY bonds and incremental boost from iBoxx positions contributed to the Fund's positive performance. Returns were heavily weighted toward to carry versus mark-to-market offset. In terms of exposure, the investment team maintained a similar portfolio positioning to the trailing three months, with a slight increase to long book as we actively sought to replace carry that was called in the month. As we approach the upcoming months, we expect to see a slight pick-up in calls and have been opportunistically rotating freed capacity into safe carry where we believe an event-driven call extension is likely. From an issuer perspective, performance stemmed largely from positions in two correctional facilities service providers which faced slight pricing pressure in the prior month but rebounded as the credits demonstrated a positive outlook with no perceived fundamental concerns. A consumer beverage and foods plastic packaging manufacturer, and a waste management company detracted slightly due to inflation-related headwinds.
