This product is managed by Alma Capital Investment Management, which is authorised in Luxembourg and supervised by the CSSF.

Accurate as of: 27 November 2025

## What is this product?

### Type

- This product is a class of share of the Sub-Fund and denominated in EUR. The Fund Alma Platinum IV is an open ended investment company with a variable capital and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

### Objectives

#### Investment objective

- The Investment Objective of the Sub-Fund is to achieve positive risk-adjusted returns to investors primarily through opportunistic investments in credit markets.

#### Investment policy

- The Sub-Fund invests in a range of financial instruments which mainly reference credit indices such as iTRAXX Main Index and Markit CDX North America Investment Grade indices and companies based in Europe and North America. These financial instruments include total return swaps (agreements to exchange a particular asset for the performance of another over a set period of time), credit default swaps (agreements where one party covers a potential loss with reference to a debt instrument in return for a periodic payment), options (agreements where one party has the right to buy or sell a financial instrument at a particular price within a fixed term) and tranches on such credit indices (agreements where one party covers a particular portion of the potential loss on an index in return for a periodic payment).
- The Sub-Fund invests in credit opportunities that the Investment Manager considers will generate returns (long positions) and bets against (take short positions) credit opportunities it believes will drop in value. The Investment Manager seeks to identify investment opportunities where it believes that the current market value of the investment does not reflect the inherent value of the investment.
- The Sub-Fund uses various risk management techniques to seek to achieve its objective relative to the risks inherent in the portfolio.
- As well as using financial contracts (derivatives) to efficiently manage the portfolio and with the aim to reduce foreign currency exposure in respect of the assets (hedging), the Sub-Fund will use derivatives for investment purpose. The gross leverage is not expected to exceed 3500% of the value of the Sub-Fund.
- The Sub-Fund, which is calculated in Euro, may use hedging to try to reduce the effect of foreign exchange rate fluctuations where investments are denominated in currencies other than Euro.
- The Sub-Fund is actively managed with no reference to a benchmark.
- The Sub-Fund does not promote environmental or social characteristics in a way that meets the specific criteria contained in

Article 8 of the Sustainable Financial Disclosure Regulation ("SFDR") or have sustainable investment as its objective in a way that meets the specific criteria contained in Article 9 of SFDR.

- Given the above objectives and the risk and reward profile of the product, the recommended holding period is 5 years.

**Redemption and Dealing:** This product is valued on each day which is a day on which banks are open for normal business in Luxembourg, London and New York and each clearing agent is open for business. Shares may be subscribed or redeemed on a weekly basis no later than 3:00 p.m. (Luxembourg time) four Business Days prior to each Wednesday (or if such day is not a Business Day, the immediately following Business Day), except for the week (Monday to Sunday) in which the last Business Day of the month falls, where there shall only be one transaction day which shall be the last Business Day of the month.

**Distribution Policy:** This product does not pay dividends. Income generated by the Sub-Fund is reinvested and included in the value of your share.

### Intended investor

The Sub-Fund has been designed for investors who are looking for long term capital growth through exposure to alternative investment strategies. As the Sub-Fund may therefore employ sophisticated strategies (including the use of derivatives), it is intended only for knowledgeable and experienced investors who are able to understand and evaluate both the investment strategy and its inherent risks (such understanding and evaluation may be gained through advice from a professional advisor). In addition, investors must be able and willing to invest in a sub-fund with a high risk grading as further described in the main part of the prospectus under "Typology of Risk Profiles".

The class I1C-E is dedicated to institutional investors only.

The minimum investment is EUR 10,000.

### Term

This product was incorporated for an undefined period. The manufacturer may not terminate it unilaterally. Only the board of directors of the Fund or a general meeting of shareholders may decide to terminate this product.

### Practical information

**Depository:** CACEIS Bank, Luxembourg Branch, 5, allée Scheffer L-2520 Luxembourg, Grand Duchy of Luxembourg

**Further information:** The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert their shares in shares of another sub-fund/class of the fund, as more described in the prospectus.

Copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, from Alma Capital Investment Management or at [www.fundsquare.net](http://www.fundsquare.net).

## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because it is not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 29 September 2017 and 30 September 2022.

**Moderate:** this type of scenario occurred for an investment between 29 December 2016 and 31 December 2021.

**Favourable:** this type of scenario occurred for an investment between 30 October 2020 and 31 October 2025.

## What happens if Alma Capital Investment Management S.A. is unable to pay out?

You are exposed to the risk that Alma Capital Investment Management S.A. might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment

periods. They are based on the following regulatory assumptions: (i) in the first year, you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	<b>€ 250</b>	<b>€ 1,311</b>
<b>Annual cost impact*</b>	<b>2.5%</b>	<b>2.6%</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.5% before costs and 1.9% after costs.

### Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
<b>Entry costs</b>	<b>0.00%</b> . In case of conversion into another class or another sub-fund, no conversion fee is charged but you may be requested to bear the difference in subscription if higher. The board of directors may apply a dilution levy of up to 5% of the net asset value per share.	<b>up to € 0</b>
<b>Exit costs</b>	<b>0.00%</b> , but the person selling you the product may do so. The board of directors may apply a dilution levy of up to 5% of the Net Asset Value per Share.	<b>up to € 0</b>
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	<b>2.02%</b> of the value of your investment per year. This is an estimate based on actual costs over the last year.	<b>€ 202</b>
<b>Transaction costs</b>	<b>0.00%</b> of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	<b>€ 0</b>
Incidental costs taken under specific conditions		
<b>Performance fees</b>	<b>0.48%</b> of the value of your investment per year. This is an estimate, calculated yearly and based on the average over the previous 5 years. The performance fee will be equal to 20% of the positive performance over the high water mark. The actual amount will vary depending on how well your investment performs.	<b>€ 48</b>

## How long should I hold it and can I take money out early?

### Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP or hold the investment longer. Redemptions of shares will be effected each valuation day provided that the redemption notice has been received no later than 3:00 p.m. (Luxembourg time) four (4) Business Days before the relevant valuation day, which is each Wednesday (or if such day is not a Business Day, the immediately following Business Day), except for the week (Monday to Sunday) in which the last Business Day of the month falls, where there shall only be one transaction day which shall be the last Business Day of the month. Applications received after that time will be considered for the following valuation day and processed on the next valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.
