What is this product?

Type

- This product is a class of share of the Sub-Fund and denominated in EUR. The Fund Alma Platinum IV is an open ended investment company with a variable capital and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Objectives

Investment objective The aim of the Sub-Fund is to seek capital appreciation by investing in equity-related instruments and derivatives.

Investment policy

- The Investment Manager is using strategy Neutral Options Volatility Arbitrage (NOVA). This Investment Strategy is based on a deep understanding of market anomalies. Based on this strategy, the Investment Manager will identify and seize opportunities identifying systematic pricing inconsistencies often amplified by hedging behaviors, flows, and behavioral biases.
- The Sub-Fund invests primarily in liquid options on indices, index futures, options on sector indices and options on single stocks globally, with a predominant exposure to the US and Europe.
- The Sub-Fund can invest in financial derivative instruments resulting in a global exposure subject to an absolute VaR limit of 20% of the Net Asset Value of the Sub-Fund.
- The Sub-Fund can use leverage with a maximum level 3500% (calculated as the gross sum of notional) or 1500% (on a gross delta-adjusted basis)
- The Sub-Fund, which is calculated in USD, may use hedging to try to reduce the effect of foreign exchange rate fluctuations where investments are denominated in currencies other than USD.
- The Sub-Fund is actively managed with no reference to a benchmark.
- The Sub-Fund does not promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of the Sustainable Financial Disclosure Regulation ("SFDR")

or have sustainable investment as its objective in a way that meets the specific criteria contained in Article 9 of SFDR.

- Given the above objectives and the risk and reward profile of the product, the recommended holding period is 5 years.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment

periods. They are based on the following regulatory assumptions: (i) in the first year, you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 478	€ 2,408
Annual cost impact*	4.8%	5.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.7% before costs and 2.5% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00%. In case of conversion into another class or another sub-fund, no conversion fee is charged but you may be requested to bear the difference in subscription if higher. The board of directors may apply a dilution levy of up to 2% of the net asset value per share.	up to € 0
Exit costs	0.00%, but the person selling you the product may do so. The board of directors may apply a dilution levy of up to 2% of the Net Asset Value per Share.	up to € 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.15% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 115
Transaction costs	3.13% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 313
Incidental costs taken under specific conditions		
Performance fees	0.50% of the value of your investment per year. This is an estimate, calculated yearly and based on the average over the previous 5 years. The performance fee will be equal to 15% of the positive performance over the high water mark and the hurdle rate. The actual amount will vary depending on how well your investment performs.	€ 50

How long should I hold it and can I take money out early?

Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP or hold the investment longer. Redemptions of shares will be effected each valuation day provided that the redemption notice has been received no later than 3:00 p.m. (Luxembourg time) two (2) Business Days before the relevant valuation day, which is each Business Day. Applications received after that time will be considered for the following valuation day and processed on the next valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.
